

Joe Francis MLA

Your State Member for Jandakot

[Redacted]

21 November 2012

Dear [Redacted]

Making decisions and getting things done is about securing a better future for your family

In 2008, at the last State Election, I was proud to be elected as your local MP for Jandakot. As an MP you see how government works and the size of our State.

The Western Australian economy is worth around \$217 billion and accounts for 46% of all of Australian exports, with strong mining, petroleum, agriculture and tourism industries. This is a critical time in our State's development, with \$167 billion worth of major projects under construction or committed.

I know Colin Barnett is someone who can make the difficult decisions, not always the most popular decisions, but the decisions we need to get things done.

Since 2008, Colin Barnett and his Ministers have led us through the global financial crisis; through a crisis of confidence in the mining industry caused by the dysfunctional Federal Labor-Green Government's Mining Tax; and has fought for our fair share of GST revenue to help fund essential services like police, schools and hospitals.

Despite these challenges so much has been achieved and so much is happening right now. I'm proud that with Colin Barnett and the community's support we've been able to:

- Construct the new \$1.7 billion, 783 bed, Fiona Stanley Public Hospital
- Commenced our new 24 hour, 130 person, Cockburn Central Police Station
- Committed \$80 million and started work on the Aubin Grove Train Station

As we lead up to the election next year I look forward to sharing with you Colin Barnett and the Liberals' plans for our State and more importantly my plans for our local area.

If I can be of assistance please contact me on 9310 8777 or if the matter is urgent, try my mobile on 0404 027 693.

Yours sincerely,

**Joe Francis MLA
State Member for Jandakot**

P.S. Enclosed is a brochure that shows some of the key things we have achieved or are working on. With your support we can see these projects through.
